RELIFE

SUNSHINE TOOLS
Dedicated to Exceptional Quality

PRECISION JUMPER WIRE

Extended And Widened Tweezers

Suitable for gripping precision components in confined spaces

T3

- Ergonomic design
- Purely hand-polished
- High hardness, not easy to deform

1 **Comfortable for long-time holding**
Extended and widened handle design for a comfortable grip

2 **Purely hand-polished**
Hand-refined with craftsmanship, each tweezer goes through multiple strict processes to pursue excellent quality

3 **High hardness, not easy to deform**
Made from specialized high-hardness, corrosion-resistant materials to ensure the collet is wear-resistant and durable.

4 **Precision gripping**
Sharp, hard and resilient tips with precise fitting, no deformation, even in narrow spaces

5 **Wide application**
Suitable for placing jumper wires, capacitors, chips and other precision components in small spaces

RELIFE

Extended And Widened, Upgraded Grip

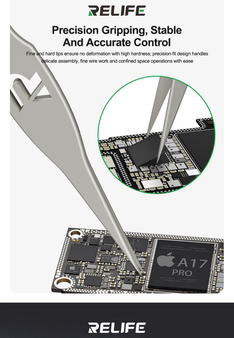

Extended and widened handle breaks the traditional shape, fits fingertips closely for a stable and comfortable ergonomic grip

RELIFE

Precision Gripping, Stable And Accurate Control

Fine and hard tips ensure no deformation with high hardness; precision-fit design handles delicate assembly, fine wire work and confined space operations with ease

RELIFE

High Hardness, Not Easy To Deform

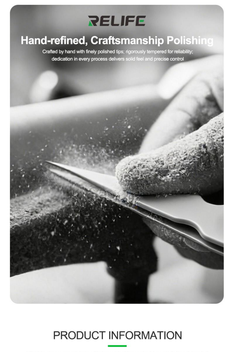

Made from specialized high-hardness, corrosion-resistant materials to ensure the collet is wear-resistant and durable.

RELIFE

Hand-refined, Craftsmanship Polishing

Crafted by hand with finely polished tips, ergonomic tempered for reliability; dedication in every process delivers solid feel and precise control

PRODUCT INFORMATION

Note: Manual measurement will have a tolerance, for reference only, please refer to the actual product

RELIFE

RELIFE

Brand	RELIFE
Product name	Wide-body tweezers
Model	T3
Net weight	≈ 45g
Gross weight	≈ 65g
Product size	171*20*5mm
Package size	245*86*8mm
